- Problem Solving, Intermediate, HackerRank

PROFESSIONAL SUMMARY

Dynamic Full Stack Web Developer skilled in JavaScript and the MERN stack, including MongoDB, Express.js, React.js, and Node.js. Proficient in developing scalable applications, integrating frontend and backend, and leveraging Generative AI. Known for quick learning of new technologies and enhancing team collaboration.

PROJECTS

1. Weather App | |

JavaScript | HTML5 | CSS3 | Responsive Web Design

- Developed a responsive web application using JavaScript, HTML5, and CSS3 to provide real-time weather updates.
- Implemented location-based weather forecasts through geolocation for enhanced user experience.
- Created a 5-day forecast feature offering daily summaries and expected weather conditions.

2. Food Recipe Web | |

JavaScript | Git | HTML5 | CSS3 | Responsive Web Design

- Developed a responsive web application using JavaScript, HTML5, and CSS3, ensuring compatibility across devices.
- Integrated external APIs to fetch real-time recipe data, providing users with up-to-date recipe suggestions.
- Utilized Git for version control, enhancing collaborative development processes.

3. Costco-Colne | |

React | Redux | Git | Responsive Web Design | Chakra UI | vite

- Developed responsive and intuitive e-commerce application replicating the Costco shopping experience.
- Implemented user authentication and secure login/signup features with validation.
- Efficiently managed cart functionality using Redux for state management.
- Styled components using Chakra UI for adaptability across various devices.
